Good Products manufactures and distributes a wide range of neoprene strip. Neoprene foam strip, also known as foam tape or foam glazing tape and neoprene sponge strip, can be supplied in adhesive backed forms for ease of application.

Closed cell neoprene strips are an excellent solution to leakage problems of both air and water. Used throughout all sectors of industry and a fundamental part of construction, neoprene strip provides an excellent solution to many sealing issues.

Neoprene strips are supplied with an adhesive backing. Often referred to as neoprene tape, adhesive backed neoprene strips provide an easy to apply water tight seal for a whole host of applications.
